

Dear Connecticut Manufacturing Facility Owners :

TURN YOUR OVERHEAD INTO PROFIT

With the C-PACE

Energy On the Line program,

you can reduce energy costs and
increase your bottom line right away.

Applications submitted by **September 16th**

could also get you a building upgrade
grant of up to **\$50,000!**

Switch and save.

C-PACE helps you take control of your energy usage. Program participants benefit from:

- Reduced energy costs and an increased bottom line, freeing businesses to focus their attention and resources on core concerns
- Predictable, trustworthy energy savings projections, a result of the Connecticut Green Bank's rigorous technical standards
- Support from the Green Bank and its program partners in developing projects that are custom tailored to each businesses' needs

Now, through the **Energy On the Line** program, Connecticut manufacturing facility owners are eligible for up to \$50,000 in grant money when working with C-PACE to implement green energy upgrades. Grant money can be used for any project-related expenses at the sole discretion of individual recipients (e.g. capital improvements, additional equipment, cash flow optimization).

A **limited number of grant opportunities** are available to owner-occupied facilities that submit an application by **September 16, 2016**.

At the right are a few C-PACE project success stories to get you thinking. Find out more about how they started saving online.

PROJECT: VFD, HVAC, Controls, Cooling towers, Energy Management System, Windows, Building Envelope

"Energy efficiency is always something we strive for, but due to the size and scope of this particular project, it would not have been possible without C-PACE."

BRANDON HALL
Forstone Capital
(left in image above)

PROJECT: 252 kW solar photovoltaic system; energy efficient lighting

"There's no state like Connecticut right now in the way we are financing renewable energy projects. And that's really C-PACE."

PETER CORBETT
InSports Center

PROJECT: 55 kW roof mounted solar photovoltaic system

PROJECT: 160 kW roof mounted solar photovoltaic system

"In business, win-win opportunities don't come very often. [C-PACE] was a no brainer."

JOANNA HUNT
Shagbark Lumber

"The C-PACE program allowed me to access low-cost and long-term financing to further support our desire to deploy solar energy and stabilize our energy costs over the longterm."

PAUL BREGLIO
Crest Mechanical
